

WE NEED BRAINS!

I/ITSEC 2023

WORKSHOP

We survived the apocalypse!!!...Now What?

Join us at the Interservice/Industry Training, Simulation and Education Conference (I/ITSEC) in Orlando, FL for our workshop: From the Last of Us to the First of Us: Rebuilding after a Zombie Crisis. Workshop is FREE to registered I/ITSEC attendees!

While designed as an engaging interactive apocalyptic experience, the outcomes are immediately and longitudinally relevant to participants from defense, public policy, academia, public health, and essential infrastructure domains. The workshop will (1) **demonstrate the value of low-fidelity simulations in capturing complex collective/team/group thought processes**, (2) **identify patterns in collective decision-making behaviors by decision category** and (3) **provide a novel gamification method for perspective taking to optimize desired outcomes**.
